PRESS RELEASE

Panorama V1 and V2 are respectively contemporary side and low table made by Italian artisans in satin glass. They are part of the collectible design language Panorama that has been developed by the Edizione Limitata's art research team in Milan. The aim of the designers was to approach the glass shapes as three-dimensional spots of color, in order to build opaque sculptures populating the interiors.

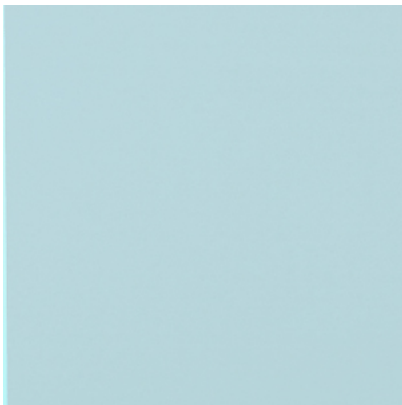

The compositional essentiality is dramatic, a solitary figure, elegant and opaque, capable of existing in solitude within a defined environment as well as shaping the light that passes through it.
